Introduction: An application

What is a Curriculum Vitae (CV)?

A CV is a summary of one‘s experience, academic degrees and skills.

What do you need it for?

A CV is asked when applying for…

universities,

scholarships/grants and

companies.

Important note

The following remarks on CVs are based on my own experience which has worked well for me. Other people’s opinion may vary from this.

Letter of Recommendation

October 9, 2006

Mr. Bill Daughton
Senior Engineer
JKH MicroElectronics
2345 Northpark Blvd.
Colorado Springs, CO 80945
(456)555-7983

Subject: Letter of Recommendation for Mr. James Miller

Dear Mr. Daughton:

James worked under my supervision as a research assistant from September 4, 2002 to May 12, 2004. His responsibilities included conducting research and interviews, fact checking, and monitoring experiments. In addition to some light clerical duties. During the course of his employment, James proved himself to be an able employee, a hard worker, and a talented researcher.

I was quite impressed by James' ability to complete all work assigned to him on time, if not before it was due. His research was always thorough and comprehensive, and his fact checking was always accurate. We sometimes allow our research assistants to conduct their own experiments, but James' talents prompted us to assign him more topics of research than the norm.

Overall, James is a very conscientious and able employee. I certainly believe he has what it takes to make a wonderful researcher someday, and I am sad to see him leave. I strongly recommend James for my position as physicist for your firm.

Sincerely,

Karen E. Jones
Professor, Physical Sciences Department

1st Lesson: Pay attention

Pay attention to the following points when using a design.

1

Consistency.
Everything should be aligned and there should be no extra spaces.

2

Less is more.
Do not use many different colors, fonts and font sizes.
If you are unsure, the classical design is always a good option.

3

One page.
A perfect CV should be only one page. Remember that a recruiter has only 10 seconds to review the CV.

4

The art of a CV.
The art of a design is to use the space efficiently to add information, but at the same time not having the CV look messy.

1st Lesson: Now, it's your turn!

Homework: Write your own CV.

2nd Lesson: Let's review.
