Introduction: An application

What is a Curriculum Vitae (CV)?

A CV is a summary of one's experience, academic degrees and skills.

What do you need it for?

A CV is asked when applying for...

universities,

scholarships/grants and

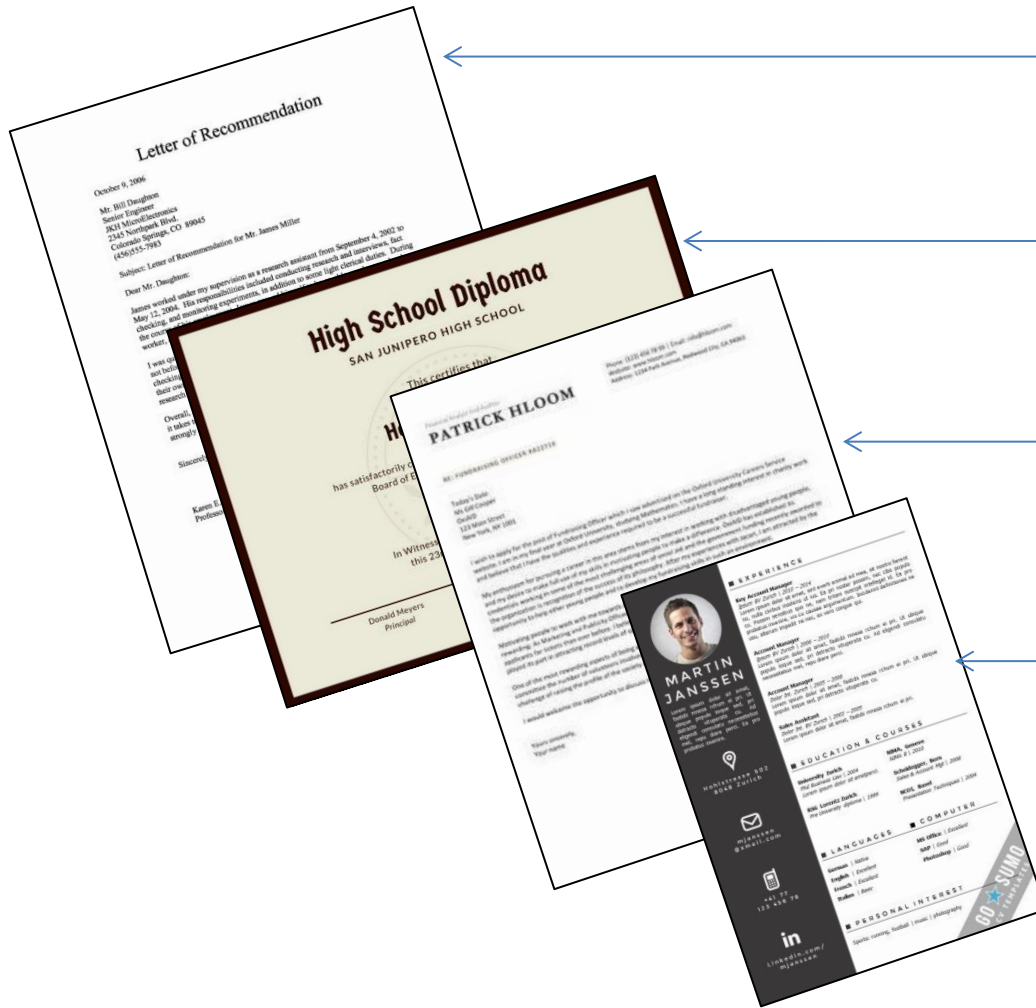

companies.

Important note

The following remarks on CVs are based on my own experience which has worked well for me. Other people's opinion may vary from this.

Introduction: An application

A usual application will consist of...

Reference or
Recommendation Letters

Certificates

Cover or
Motivational Letter

1st Lesson: Pay attention

Pay attention to the following points when using a design.

1

Consistency.

Everything should be aligned and there should be no extra spaces.

2

Less is more.

Do not use many different colors, fonts and font sizes.
If you are unsure, the classical design is always a good option.

3

One page.

A perfect CV should be only one page. Remember that a recruiter has only 10 seconds to review the CV.

4

The art of a CV.

The art of a design is to use the space efficiently to add information, but at the same time not having the CV look messy.

1st Lesson: Now, it's your turn!

Homework: Write your own CV.

2nd Lesson: Let's review.

What have we learnt so far?

Structure

What is a good structure?

Design

How can we implement different CV-Designs?

The image displays six distinct resume templates arranged in a grid. Each template is tailored for a specific career path and includes various sections such as 'Education', 'Experience', 'Skills', and 'Languages'. The templates use different color schemes, fonts, and layouts to represent various professional styles. The professions represented are Education, Software Engineer, Marketing, Project Manager, Business Development, and Program Manager. Each template includes a placeholder for a profile picture and a header section for contact information. The 'Experience' section typically lists job titles, dates, and bullet points describing responsibilities and achievements. The 'Skills' section often uses icons or progress bars to represent proficiency levels. The 'Languages' section lists languages and the user's fluency in them.

2nd Lesson: Content & Language

Goals for the second lesson.

1

Content.

What are we supposed to write?

2

Language.

How are we supposed to write it?

2nd Lesson: Content

What are we supposed to write?

Basic information.

There are some basic information which most people agree belongs on the CV.

Extended information.

For more extended information opinions may differ.

Is this a good information to be added? Right? Wrong? *It depends.*
Ask yourself: Would this information be of interest for the recruiter?

2nd Lesson: Content

Let's discuss it by focusing on each CV section individually.
